Claims 1-36 are pending.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-21 and 31-36 drawn to DNA, cells and plants transformed with said DNA, classified in class 800, subclass 298, for example.
- 5 II. Claims 22-29, drawn to methods comprising transforming cells with DNA encoding a beta-ketoacyl-ACP synthase, classified in class 800, subclass 281, for example.
- III. Claims 30 and 31, drawn to oil, classified in class 530, subclass 370, for example.

10 The inventions are distinct, each from the other because:

The inventions of Groups I-III are distinct products and methods, wherein one is not required by the other. The DNA of Group I and the oil of Group III are each distinct products that differ chemically and structurally, and are each used for different purposes. In addition, 15 the polypeptide of Group III and the method of Group II are not required one by the other, and the DNA of Group I can be used in a method other than the methods of Group II, such as for hybridization, for example. Thus the inventions of Groups I-III are each capable of being separately made, independently used and the patentability of one would not render the other obvious or unpatentable.

20 Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, their recognized divergent

subject matter, and the requirement for different areas of search, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37

5 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37

10 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth F. McElwain whose telephone number is (703) 308-1794. The examiner can normally be reached on Monday through Friday from 8:00 AM to 4:30 PM.

15

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amy Nelson, can be reached at (703) 306-3218. The fax phone number for this Group is (703) 308-4242. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989).

20

Any inquiry of a general nature or relating to the status of this application should be directed to the legal analyst, Gwendolyn Payne, whose telephone number is (703) 305-2475, or to the Group receptionist whose telephone number is (703) 308-0196.
